RE: NYS DEC MS4 Stormwater Coalition Annual Report

Dear Stormwater Coalition Members,

Accompanying this letter is the NYS Department of Environmental Conservation MS4 Annual Report in electronic format for the 2017-2018 reporting year. You need to do the following to meet the requirements of the NYS DEC permit:

Part VII.A.2. Annual Report Presentation

Below are the requirements for the annual report presentation:

- i. Prior to submitting the final annual report to the Department, by June 1 of each reporting year, present the draft report in a format that is open to the public, where the public can ask questions about and make comments on the report. This can be done:*
 - *At a meeting that is open to the public, where the public attendees are able to ask questions about and make comments on the report. This may be a regular meeting of an existing board, such as planning, zoning or the town board. It may also be a separate meeting, specifically for stormwater. If multiple covered entities are working together, they may have a group meeting; or*
 - *On the internet by:*
 - *Making the annual report available to the public on a website;*
 - *Providing the public the opportunity to provide comments on the internet or otherwise; and*
 - *Making available the opportunity for the public to request an open meeting to ask questions about and make comments on the report. If a public meeting is requested by 2 or more persons, the covered entity must hold such a meeting. However, the covered entity need only hold a public meeting once to satisfy this requirement.*
- ii. Provide public notice about the presentation, making public the following information when noticing the presentation in accordance with the local public notice requirements:*
 - *The placement of the annual report on the agenda of this meeting or location on the internet;*
 - *The opportunity for public comment. This SPDES general permit does not require a specified time frame for public comments, although it is recommended that covered entities do provide the public an opportunity to comment for a period after the meeting. Comments received after the final annual report is submitted shall be*

reported with the following year's annual report. Covered entities must take into account those comments in the following year;

- *The date time of the meeting or the date the annual report becomes available on the internet; and*
- *The availability of the draft report for prior review prior to the public meeting or duration of availability of annual report on the internet;*

- iii. *the Department recommends that announcements be sent directly to individuals (public and private) known to have a specific interest in the covered entity's SWMP;*
- iv. *include a summary of comments and (intended) responses with the final annual report. Changes made to the SWMP in response to comments should be described in the annual report; and*
- v. *ensure that a copy of the final report and, beginning in 2009, the SWMP plan are available for public inspection;*

The draft Annual Report for 2017-2018 has been posted on the Stormwater Coalition's Project website:

www.chemungstormwaterprojects.com

We also will have a link available for the public to submit comments. I believe if you public notice this information in your community you will meet the above stated requirements. I have also provided each community with an electronic copy via email of the draft report. I encourage you to place it on your municipal website with directions on how comments can be submitted.

The annual report is due to NYS DEC by June 1st; therefore it is important that you get this information out as soon as possible. Also, please save a copy of the public notice that is posted and any comments received for the Stormwater Team. We will need this information for next year's annual report. Also, keep a copy in your MS4 Stormwater Program Management Plan binder.

Please let me know if you have any questions.

Thank you,

Jessica Verrigni, CPESC, CPSWQ
Stormwater Technician

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
